Step 5: Enter your school login credentials

The image shows a login page for Marquette University. At the top, there is a dark blue header with the Marquette University logo and the text "MARQUETTE UNIVERSITY" and "BE THE DIFFERENCE." Below the header, the page is titled "Secure LOGIN for Marquette University". There are two input fields: "Marquette Username" and "Password". Below the password field is a "LOGIN" button.

Step 6: After logging in, first time users will need to request access to BigMouth. Users can request access by filling in the form shown below and then clicking on the “Click to Request Access” button.

The image shows the BigMouth Dental Data Repository website. The header includes the BigMouth logo and the UTHealth logo. The navigation bar contains links for "Access BigMouth", "FAQ", "Publications", "Contact", and "Admin". The main content area features a "Welcome!" message and a section titled "Your institution has shared the following Digital ID information with BigMouth". This section displays a list of information: Name: John Doe, Email: None, Username: jdoe@uth.tmc.edu, and Institution: UT Health. Below this information is a "Send Request" button. A message states: "You have not yet been granted access to BigMouth. You may send a request here. Enter reason for request:" followed by a text input field and another "Send Request" button.

Users can now log out by closing the browser. The BigMouth team will review your request and send you an email with a DocuSign link to sign an access request form. The signed form will then automatically be routed to the project sponsor at your institution for signature. After the approval by the project sponsor, your account will be set up and you'll be informed through an email.
