ADDENDUM 1

DATE: March 09, 2020
PROJECT: MSB Stairwell Lighting Replacement
ITB NO: 744-B2013
OWNER: The University of Texas Health Science Center at Houston
TO: Prospective Proposers

This Addendum forms part of and modifies Proposal Documents dated, February 18, 2020, with amendments and additions noted below.

1. **Clarifications, Questions and Answers:**

1. Question: If a scaffold will be required to complete this job, will a daily inspection of the scaffold be needed or will the initial inspection suffice?
   Answer: Inspections will take place initially, and periodically by our internal EHS-OSFP group.

2. Question: Will we have access to the floor/elevator to transport material or will the stairwell be our only point of access?
   Answer: The service elevators in the center of the building can be used to transport equipment/material to upper floors.

3. Question: Will we be allowed to utilize a service vehicle near area of construction with the use of hazard lights, cones and standard caution tape?
   Answer: Parking is not allowed in the loading dock, or other marked “No Parking” zones around the building.

4. Question: Will we have an area available to store materials and/or tools? Material/Tools for immediate work will be allowed on site.
   Answer: Storage of the full project’s material needs will not be allowed. Material should be delivered to site on an as-needed basis.

5. Question: To confirm, Will the work required for this project be allowed to take place during NORMAL business hours? (Monday- Friday 7:00 a.m. to 3:30 p.m.) If NO; please clarify.
   Answer: Yes, most of the work will be allowed during normal business hours. Please reference the UGC and SC for more information. The disruptive work, such as hammer drilling, large equipment and/or scaffold assembly will have to be coordinated with the ODR.
