ADDENDUM 3

DATE: 5/3/19
PROJECT: Engineers
RFQ NO: 744-Q1908
OWNER: The University of Texas Health Science Center at Houston
TO: Prospective Proposers

This Addendum forms part of and modifies addendum 2, Questions and Answers with additions noted below.

Revision to the answer to question # 2, regarding the submission rules, the RFP states that we are to submit a maximum of five project examples. Since we are showing several disciplines in our response, can we submit more than five project examples?

a. There is not a page limit to the overall RFQ. Yes, you can submit more than five project examples but the intention is to not overwhelm the evaluators with too much information. The proposer should use project examples that best highlight their ability to perform work.
