DATE: November 5, 2019
PROJECT: Datacenter Enhancements
RFQ NO: 744-Q2002
OWNER: The University of Texas Health Science Center at Houston
TO: Prospective Proposers

This Addendum forms part of and modifies Proposal Documents dated, September 24, 2019, with amendments and additions noted below.

1. Below are the questions and subsequent answers submitted.

QUESTION 1:
The majority of our relevant experience for Data Centers contain a Non-Disclosure Agreement. Therefore, we cannot include project name and contact information in the reference section. Is there a way to address this without causing us to receive a low score for that section?

ANSWER 1:
It is our intent to verify that you have similar experience and also how well you performed. I would suggest listing details from your other similar projects with a note that you have a non-disclosure and cannot provide a name/contact so we are aware when scoring. This will address experience with similar projects. In addition, I would list projects with contact information you can disclose so we can contact them for thoughts on past performance. This allows us to score your past performance.

QUESTION 2:
Is the prime firm involved in the initial study of this facility precluded from submitting on this proposal?

ANSWER 2:
No

QUESTION 3:
Is there a page limit to the proposal (Item 4.1.2) ?

ANSWER 3:
No
