

Changing TigerText Password

Change TigerText password using your phone

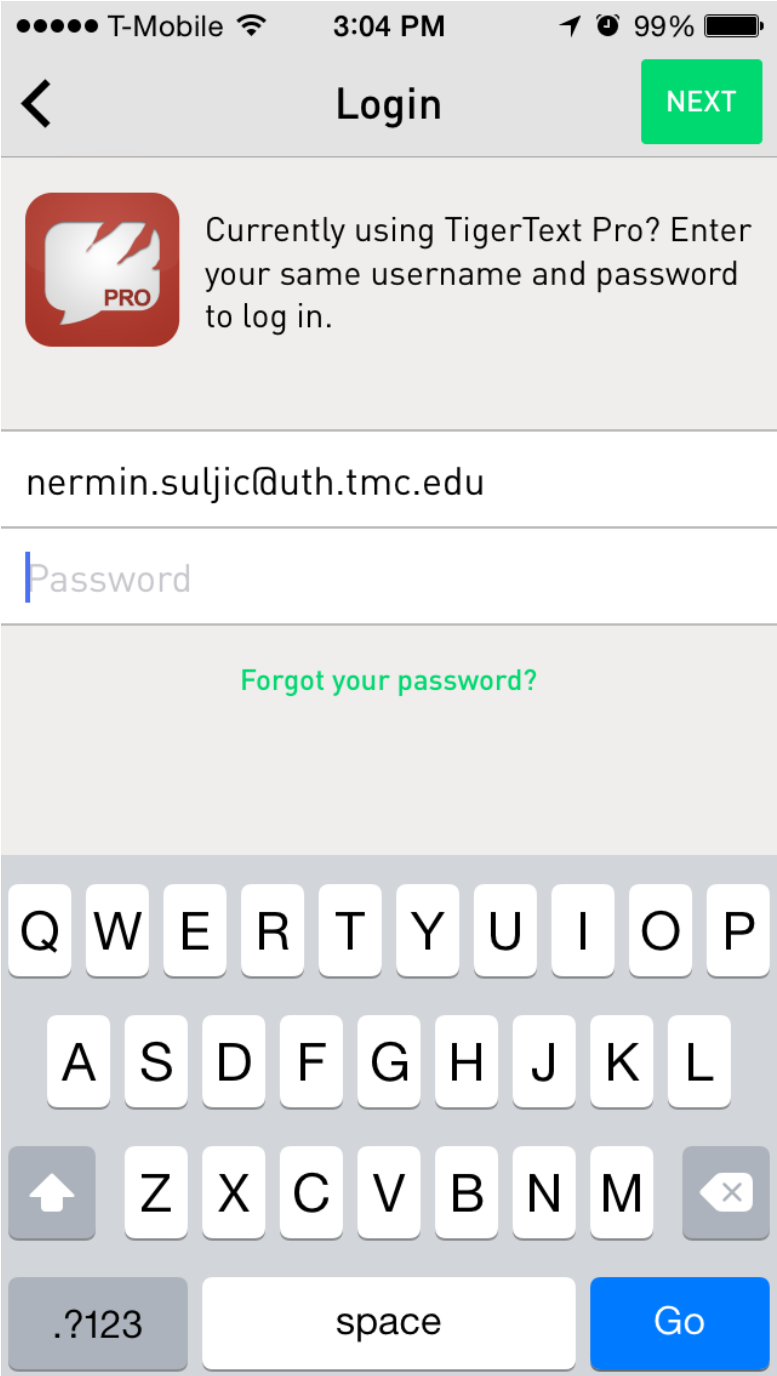

Open the TigerText application

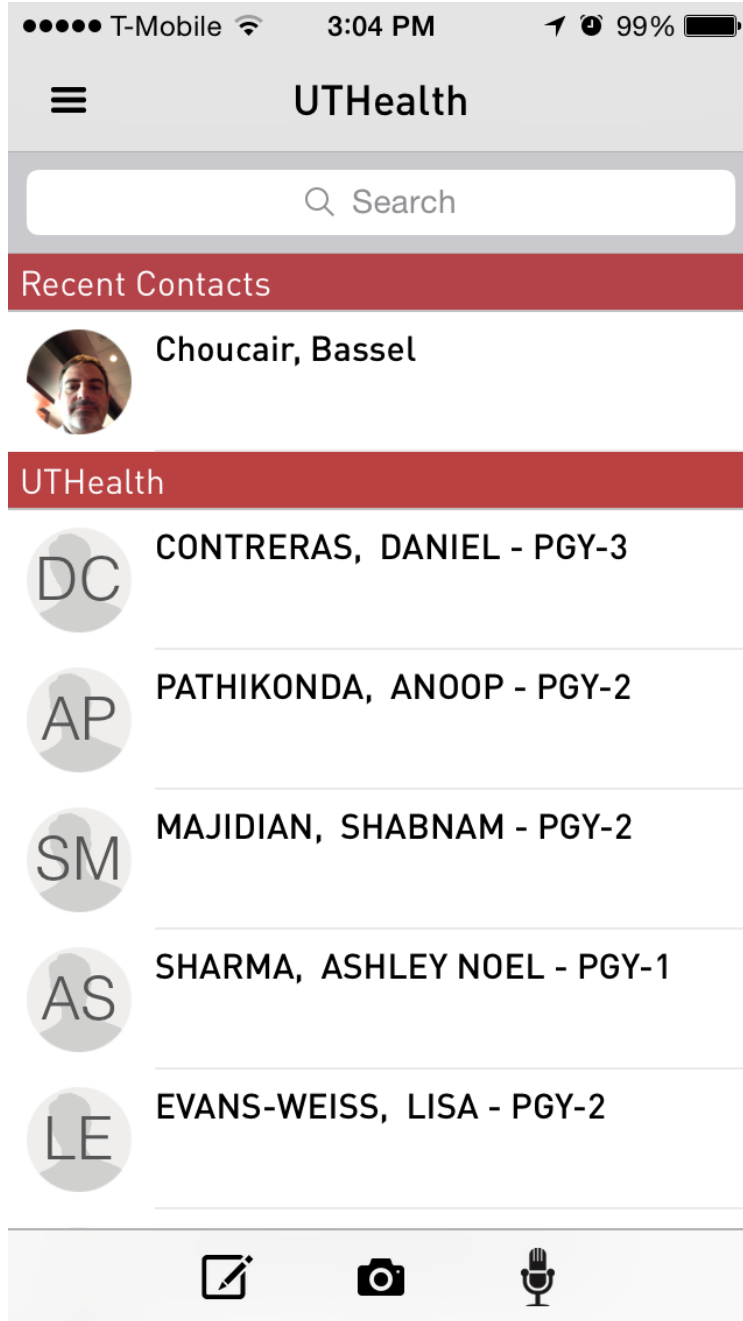

Click on "Log In"

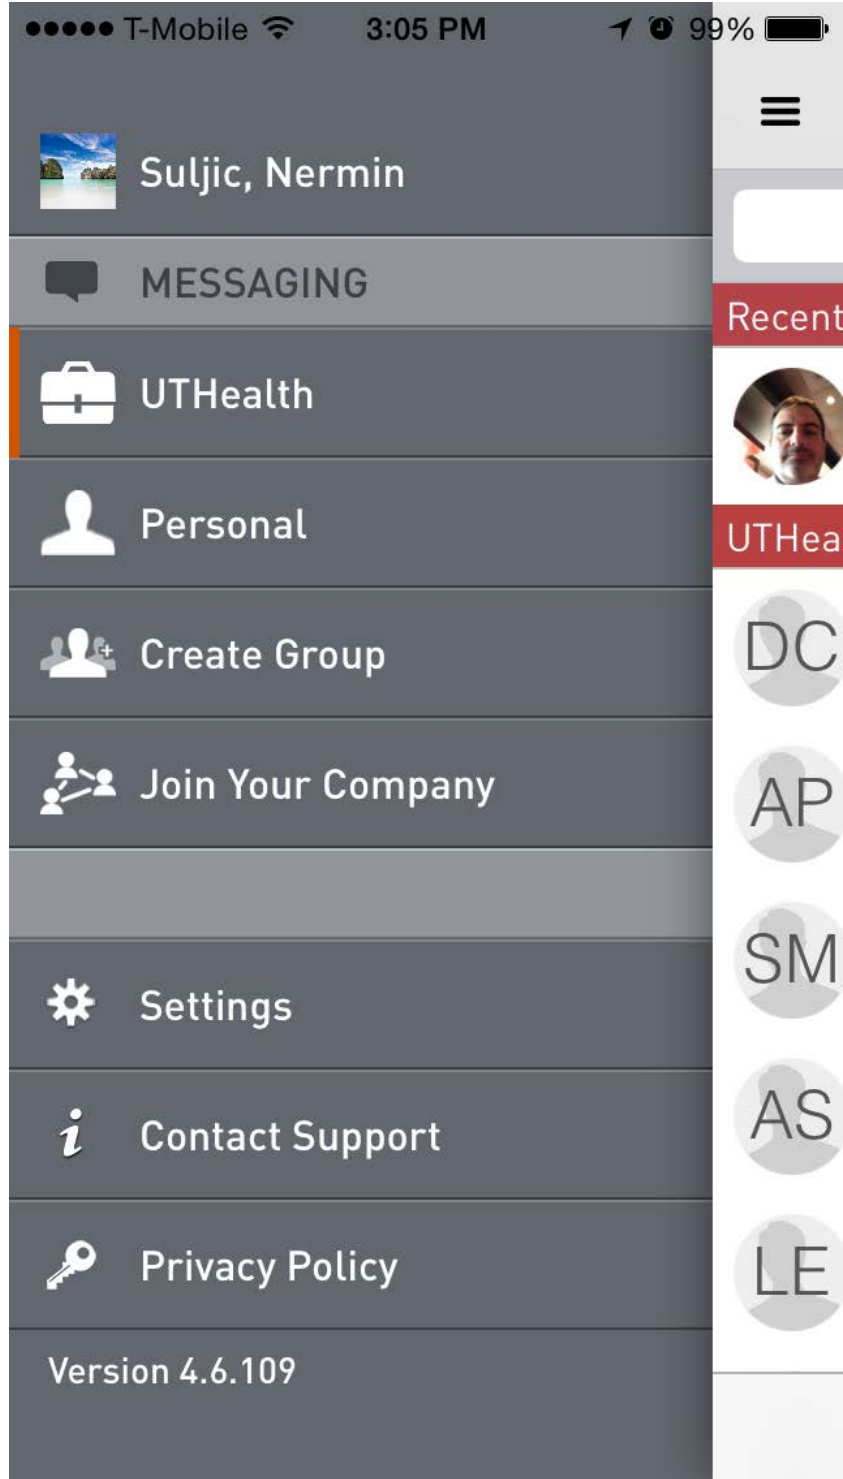

Log in with **your UT e-mail** address as the username and the temporary password.

Click on the menu button (Three horizontal lines – Top-Left corner)

Tap "Settings"

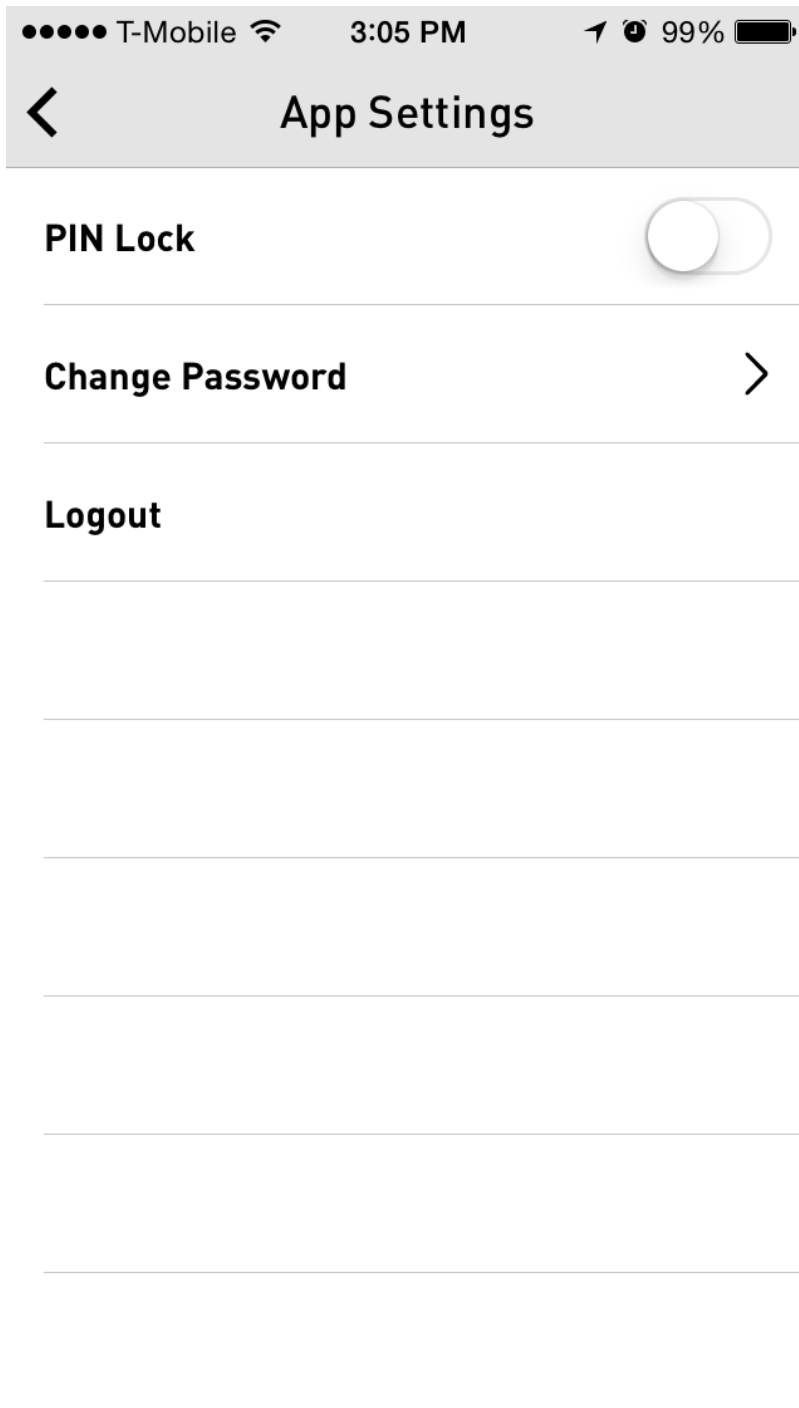

Tap "App Settings"

The screenshot shows the profile page in the Settings app. At the top, the status bar displays 'T-Mobile', signal strength, Wi-Fi, time '3:05 PM', location, and battery at '99%'. Below the status bar is a navigation bar with a back arrow and the title 'Settings'. The profile section features a profile picture of a tropical beach, the name 'Nermin Suljic', and a chevron arrow. Below this is a horizontal line. Underneath, there are two options: 'Status' and 'Insert Status'. Below these is another horizontal line, followed by the 'Do Not Disturb' toggle switch, which is currently turned off. Below that is another horizontal line, followed by 'Message Settings' with a chevron arrow and the subtitle 'Lifespan delete on read, previews...'. Below that is another horizontal line, followed by 'App Settings' with a chevron arrow and the subtitle 'PIN Lock, Change password...'. Below that is another horizontal line, followed by 'Notifications' with a chevron arrow and the subtitle 'Sounds, Alert, badges...'. Below that is another horizontal line, followed by 'Companies' with a chevron arrow and the subtitle 'View and remove companies...'. At the bottom, there is a final horizontal line.

Tap "Change Password"

Enter your temporary password as “current password” and your new password and tap “Save”

Enter Current Password

Enter New Password
