Note 2: The Cost of Uncompensated Care

Uncompensated Care includes the unreimbursed costs for the uninsured (those with no source of third party insurance) and the underinsured (those with insurance who after contractual adjustment and third party payments have a responsibility to pay for an amount they are unable to pay). Uncompensated care also includes the unreimbursed cost from governmental sponsored health programs.

The institution identifies the gross charges for uncompensated care by identifying the payer categories where the cost of care exceeds the appropriate, available funding.

The institution converts gross charges for uncompensated care to cost by relating them to the Medicare fee schedule on an aggregate weighted average basis. The institution recognizes payments from patients, government sponsored programs (Medicare, Medicaid, and local government programs) and other appropriate lump sums, including any amounts received from Upper Payment Limit, as funding available to offset costs. The appropriate funding is applied to the cost of care for each payer category and uncompensated care is identified where the cost of care exceeds the available funding.

The institution's gross charges for uncompensated care and residual unreimbursed uncompensated care (after funding available to offset costs) are shown below:

Gross Charges for Uncompensated Care	564,340,743.30
Residual Unreimbursed Uncompensated Care	59,111,206.46
