What does Informed Consent mean to YOU?

Your input may shape the future of informed consent!

- **Purpose:**
  We want to discover your perspectives, attitudes, and beliefs about biobanking and identify important factors that may influence your decisions regarding providing informed consent for biobanking.

- **Our Approach:**
  Join us in a group interview and/or a one-on-one discussion. Interviews and discussions will last approximately 1 hour.

- **Why participate?**
  Your input may help determine future informed consenting processes. Study participants will receive a gift card as well as parking validation.

---

**Biobanking Informed Consent Research Study**

*We are looking for adult participants (≥ 18 years old). No experience with biobanking required.*
