AE-University Housing Policies Regarding Subletting

AE-University Housing is an access controlled facility owned and operated by the State of Texas and as such, keys and parking tags are considered government property. Housing residents cannot give the keys and parking tags which are assigned to them, to any other person.

- Allowing anyone to stay in your apartment while you are away, whether they are paying you or not, is considered subletting.
- Any changes to your living conditions (adding people or dropping people) must be reported to the Leasing Office.
- Failure to abide by AE-University Housing subletting policies will constitute a breach of contract and will result in eviction.
