The 12th Hans J. Müller-Eberhard Memorial Lecture Series

“Unexpected Non-canonical Roles of Complement in Cell Physiology”

CLAUDIA KEMPER, PH.D.
Senior Investigator
Chief, Complement and Inflammation Research Section
Laboratory of Molecular Immunology (LMI), Immunology Center
National Institutes of Health, NHLBI

Friday, April 13, 2018
11:00AM-12:00 noon

The Beth Robertson Auditorium
Fayez S. Sarofim Research Building, Rm 104

This memorial lecture series honors the life and work of Hans J. Müller-Eberhard, M.D., Ph.D., 1927-1998, distinguished molecular immunologist, first holder of the Cullen Chair in Molecular Medicine, and first director of the Institute of Molecular Medicine at The University of Texas Health Science Center at Houston.
