

Global Implementation Talks

"Lessons learned from Ebola and how they formed the evidence-based policies and practices for the COVID Pandemic Playbook"

**April 18th, 2023
12 PM - 1 PM
Online via Teams**

**BethAnne Moskov, MPH,
PHD(c)**

UTHealth Houston School of Public Health

Department of Management Policy and
Community Health

BethAnne Moskov is a PHD candidate in the UT SPH Department of Management Policy and Community (MPACH) who will talk about her work during the 2014-2016 Ebola outbreak, how this outbreak generated evidence for policies about pandemic preparedness, and how these policies were implemented (or not) in global COVID pandemic response.
