A series of workshops on commercialization featuring presentations by experts in innovation, intellectual property, entrepreneurship, technology transfer, licensing, collaborations with industry, and start-ups.

**WORKSHOP 2**

**Licensing Technologies: University and Industry Perspectives**

This workshop will explore various aspects of license terms, agreements and technology transfer.

- Dr. Bruce Butler, from UTHealth, will talk about Technology Transfer.
- Natalie Wright Curley, JD, from UT MD Anderson Cancer Center, will provide an overview of Licensing Agreements.
- A Panel, composed of start-ups CEO’s, will provide their perspectives on licensing university Intellectual Property.

**Who should attend?**

UTHealth, UTMB and MDACC Faculty interested in under stating licensing agreements and learning about what the industry is looking for.

**Future Workshops to include:** (3) Collaborations With Industry, (4) Start-Ups

Program supported by a grant from The University of Texas System to the UTHealth and UTMB CTSAs.
