How To Apply

The Interprofessional Team Training Workshop is open to all UTHealth students. Below are several ways to participate in the workshop.

Contact or visit the CIPC
Phone: (713) 500-3579
Email: UTCIPC@uth.tmc.edu
Website: www.uth.edu/ipc/workshop

Visit our booth at Salutation, the Student InterCouncil’s annual student event in September.

Speak with a faculty representative
Ms. Claire Singletary
Graduate School of Biomedical Sciences

Dr. Bela Patel
McGovern Medical School

Dr. Juliana J. Brixey
School of Biomedical Informatics

Dr. Stacy Crandall
School of Nursing

Dr. Robert Spears
School of Dentistry

Dr. Arch (Chip) Carson
School of Public Health

Attend an ASIPH meeting
Student representing all six schools of UTHealth have created a student organization called The Association of Students for Inter-Professional Healthcare (ASIPH). Join your peers on the first Tuesday of every month in University Center Tower 1505C.
Email: houstonasiph@outlook.com

About the University
The University of Texas Health Science Center at Houston (UTHealth), the most comprehensive academic health center in The University of Texas System and the U.S. Gulf Coast region, educates more healthcare professionals than any health-related institution in Texas. Established in 1972, UTHealth’s more than 10,000 faculty, staff, students, and medical residents are committed to delivering innovative solutions that create the best hope for a healthier future.

About the Center for Interprofessional Collaboration
The Center for Interprofessional Collaboration (CIPC) promotes education, practice, and research within the framework of a health care team so that students and faculty have opportunities to gain knowledge and skills for interprofessional (IPE) models of care.

INTERPROFESSIONAL TEAM TRAINING WORKSHOP

A free introductory workshop on interprofessional collaboration
INTERPROFESSIONAL TEAM TRAINING WORKSHOP

The Interprofessional Team Training Workshop is a free, four consecutive session workshop offered by the Center for Interprofessional Collaboration (CIPC) that is designed to enhance your ability to communicate and collaborate in interprofessional health care teams.

Reasons to Attend
• Connect with other students from all six health science schools.
• Learn about interprofessional collaboration (IPC) and interprofessional education (IPE).
• Participate in fun activities that will build teamwork and communication skills.
• Use strategies and tools to enhance efficiency, effectiveness, and decision making in teams.

Learning Objectives
1. Overview of the four core competencies of IPC:
   • Values/Ethics for Interprofessional Practice
   • Roles and Responsibilities
   • Interprofessional Communication
   • Teams and Teamwork
2. Describe the roles of interprofessional team members and how these roles apply to working in teams.
3. Demonstrate ethical principles in decision making.
4. Utilize structured communication strategies as presented in TeamSTEPPS® to analyze a case study.
5. Analyze a case study using the four IPC domains.

Contact the CIPC
The workshop takes place at The University of Texas Health Science Center at Houston (UTHealth). Contact the CIPC for specific workshop dates and location.
Phone: (713) 500-3579
Email: UTCIPC@uth.tmc.edu
Website: www.uth.edu/ipc/workshop

What is Interprofessional Collaboration?
Interprofessional collaborative practice: “When multiple health workers from different professional backgrounds work together with patients, families, [careers], and communities to deliver the highest quality of care.”

How IPC Can Enhance Your Education
• IPC can help you to develop the necessary knowledge, attitudes, skills, and behaviors to become effective members in a health care team.
• Provides an opportunity for you to understand the roles of health professions and how to communicate effectively with them.
• Offers career and social networking opportunities with other health sciences students.
• Houstonians may all benefit from future health care professionals who will provide accessible, safe, patient-centered care.

About TeamSTEPPS
TeamSTEPPS® (Team Strategies and Tools to Enhance Performance and Patient Safety) is an evidence-based program funded by the Agency for Healthcare and Quality (AHRQ) that optimizes performance among teams of healthcare professionals, enabling them to respond quickly and effectively to whatever situations arise.

TeamSTEPPS® training provides:
• Techniques for communicating effectively in a health care team.
• Leadership skills that includes goal setting, decision making, and conflict resolution.
• Tools to help assess health care situations.
• Methods for supporting the members of a health care team.

Participants of the Interprofessional Team Training Workshop will learn about the following principles in the second and third workshop sessions.

Modules
1. Team Structure
2. Leadership
3. Communication
4. Situation Monitoring
5. Mutual Support
